

## BB20 Decagon

Write your BB20 Standard in the space provided. On all of the other sides write/draw a concept that supports the understanding of that standard. Make sure you include the following in the triangular spaces:

1. Your name
2. Write out the standard and element
3. At least 3 **labeled** diagrams related to your standard
4. At least 3 picture definitions of concepts related to your standard.
5. Fill the other 3 spaces with study aides that you think will help you with this concept.

Color your BB20 Decagon. Cut out your bio standard decagon. Fold on the lines with the adjacent shaded areas. Glue the shaded areas to the appropriate side. Attach a string to your bio standard decagon for hanging.
